*long me by the shore*

a film by david findlay

## synopsis

Introducing a young cast of first time actors, 'Lay Me by the Shore' follows a week in the life of Noah, a high school senior in his final days of school as he comes to terms with his best friend's passing. Bathed in the warm light of long June days and with the intimidating spectre of an unknown future looming, the tale is told from the perspective of the recently departed and, through the prism of grief, highlights the raw, potent emotions of youth.

Starring Isla Pouliot Kai Smith
